— ABOUT

At Hygree, we are driven by excellence. Excellence for our product, for our clientele, and for our service. In the next few pages, you will see how this excellence has been translated into relevant, long-lasting modular toilet solutions which match international standards. We provide solutions like we are outfitting our own environments. And that's a touch of personalised care and that is hard to find anywhere else.

Together, with you, we can usher in global standards of toilet concepts, with a wide range of products, unrivalled service & best-practices, to create wonderful experiences for you and your customers.

— WHY HYGREE TOILET CUBICLES

The outlook of commercial spaces is rapidly changing – with ultra-modern, contemporary designs becoming the norm.

Every commercial building, from corporate offices to shopping malls, IT parks to schools, airports to co-working spaces, universities to metro stations, hospitals to multiplexes, institutions to clubhouses, factories to warehouses, community centres to theme parks, today strives to have cutting-edge technology, innovative design, swanky interiors and intuitive products, with an uncompromising focus on hygiene and convenience.

HYGREE's Rest Room solutions offer just the right match for your commercial spaces.

These eco-friendly products are made of **High Pressure Laminate (HPL) boards combined with high-endurance accessories of nylon polyamide or stainless steel, offering unmatched durability and style.**

Models, designs, colours, or specs – rest assured, you'll find your perfect rest room solutions with HYGREE Toilet Cubicles, Changing rooms, Shower rooms, Urinal dividers, Locker Rooms of the topmost quality, designed and customised to suit your needs with the ideal fit.

Standard floor clearance	... 150 mm
Standard door height of restroom cubicle	... 1830 mm
Standard size of urinal dividers	... 750 x 450 x 400 mm

___ COMPOSITION

___ BOARD COMPOSITION

The high-composition Compact Grade Laminate / High Pressure Laminate (HPL) is a Phenolic Core Panel, composed of thermosetting resins, homogeneously reinforced with cellulose fibres, manufactured at over 1500°C as per IS 2046 and BS-EN-438 standards. Two-sided decorative laminate surface is melamine-coated on both sides, making it scratch and impact resistant and also anti-bacterial & anti-fungal for enhanced hygiene of surfaces.
