## *My Expression to it*

*A feeling is only an experience that is one's personal emotion.*

*To feel this one needs to indulge.*

*To me bathtubs are the epitome of luxury.*

### **IT IS MY CHOICE!!!**

I meditate in the bathtub. The water needs to be very hot, so hot you can barely stand putting your foot in it. Then you lower yourself, inch by inch, till the water's up to your neck.

I feel so much of myself when I'm in a hot bath."

I remember the tubs, too: exciting, comfortable, enveloping, and exhilarating. The modern shaped tubs and the fancy features, and I remember the shapes and sizes of the water taps and the different sorts of spouts.

The dream bathtub is pushed into the room open and the dappled depths of our imagination become a uniformed intruder, often out of scale with its surroundings and nearly always discordant in colour and texture. My tubs overlooking indoor lily ponds, gives me sense of oneness with nature

I can say I have experienced bliss "An over-indulgence of anything, even something as pure as water, can intoxicate."

I have had my moments with me and myself "They both listened silently to the water, which to them was not just water, but the voice of life, the voice of Being, the voice of perpetual Becoming."

### **MY BATHTUB SPEAKS TO ME**

"Even the memory of cradling her in my arms is pure euphoria. And all that I ask out of life is that it be constant and unending euphoria."

**Roman Payne**

In one drop of water are found all the secrets of all the oceans; in one aspect of **You** are found all the aspects of existence

It's time to find your one... at **HYGREE** you can be sure to find one for your moods, find your essence, make it yours, your experience can unleash your hidden desires,

You will soon find your first line and pen your book Or you may find the tune to make the song of your life....

It's only this one Life that has to be experienced with the **HYGREE** wellness.

At **HYGREE** we care for your feelings and this the testimonial for us to say in times to come.

# Water *quite aptly called the* **“Elixir of life”**

People have always been naturally drawn to water as a source of comfort - The soothing sounds of a bubbling brook, the relaxing steam of a natural hot spring. Water therapy in a Whirlpool Hot Tub combines all the best calming features of water - opening the blood vessels to improve circulation, relaxing the muscles and providing an escape from the pressures of daily life.

HYGREE  
www.hygree.in

# DID YOU KNOW

Warm water or “HYDRO ” therapy can promote relaxation, pain relief & much more....

## RELAXATION

DE Stress and soothen your senses-Unwind and Immerse.

## IMPROVED SLEEP HABITS

The National Institutes of Health estimates that 30 percent of Humans suffer from sleep disruption. All the benefits of immersing yourself in warm water-tension relief, improved circulation and more-also help create healthy sleep habits, according to the Better Sleep Council

## SOOTHENS THE OVER WORKED MUSCLES

Reduces muscle tension and overall discomfort resulting from stress.

## IMPROVES CIRCULATION

It reduces pain levels in those with arthritis by opening the blood vessels and increasing range of movement

## WARMS THE MUSCLES & JOINTS

And for those who suffer from lower-back pain, a 2012 article in the Journal of Musculoskeletal Research found that hydrotherapy provides more potential benefits when compared to land-based exercises.

## LOWER DIABETIC SUGAR LEVELS

A study by the New England Journal of Medicine found that bathing in a hot tub simulates the beneficial effects of exercise. The result is that patients with type 2 diabetes who soak in a hot tub for 30 minutes a day, 6 days a week for 3 weeks, experience a reduction in blood sugar levels by an average of 13%.

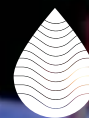

## LOWERS BLOOD PRESSURE

A recent study for the Mayo Clinic recommended that relaxing in a hot tub can be beneficial for heart disease patients. The study showed that relaxing in a hot tub is less stressful on the heart and more beneficial than working out on an exercise bike! The study also demonstrated that soaking in the hot tub for as little as 15 minutes will lower blood pressure

## RELEASES ENDORPHINS

Buoyancy eases pressure in joints and muscles, while heat increases blood flow to muscles and accelerates healing. Additionally, Hot tub jets provide therapeutic massage, stimulating the release of endorphins, which are the body's natural painkiller.

## .....DISCONNECT & EMERGE RENEWED

HYGREE  
www.hygree.in

### **Air-Jet**

The Air-Jet outlets at the bottom of the bath tub eject air. Full body Air-Jet massage creates the holistic relaxation.

---

### **Whirlpool**

The Jet inside the bathtub ejecting water creates a whirlpool effect. The whirlpool effects massages the lower body and legs giving total comfort.

---

### **Air-Jet + Whirlpool**

The luxury combination of Air-Jet and Whirlpool maximizes your bathroom experience.

---

Give yourself the time to indulge in luxury everyday. Taking a bath is no longer just about cleansing your body but also soaking in extreme comfort and tranquility.

**Hygree** wide-range of bathtubs are specially designed to maximise the little time you have for yourself. Unwind in a luxurious sanctuary for relaxation and meditation.

# TWIN COMPLEMENTING COUNTERPARTS

---

Combining Whirlpool Massage with Hot Water Bath also allows to unlock the benefits associated with the traditional Hot Springs.

Air baths utilize a blower that generates millions of tiny air bubbles through very small air jets in the bottom of the tub. These bubbles caress the body as they move toward the surface of the water and revitalize the bather with a light, full-body massage.

HYGREE
